Web Developer - MERN Stack

I'm a passionate web developer with a focus on Node JS and React JS. My journey into web development has been a thrilling ride, and I've honed my skills over several years. With a strong foundation in Express JS, I thrive in creating dynamic and user-friendly web applications. My expertise extends to database management, with hands-on experience in MySQL and MongoDB.

Expertise

- Node JS
- React JS
- Mongo DB
- CSS
- REST API
- Express JS
- SQL (Sequelize)
- AWS Integration

Experience

Dec 2022 - Present

ITFlex Solutions | Near Elcot IT Park.

Backend and Frontend Development (Mern Stack)

I possess extensive experience in backend development utilizing Node.js and Sequelize for both MongoDB and MySQL databases. With a portfolio comprising over 10 projects, I have demonstrated proficiency in architecting robust backend systems. Additionally, I have expertise in frontend development and API integrations, contributing to the seamless integration of various components within software ecosystems.

Projects

1. AI Chat-Bot - Developed an advanced AI-powered chatbot integrated with an avatar model designed to address user health concerns (<https://avatar.rainbowhealthfinder.com.au/>).

2. Sales Reports - Developed a comprehensive admin panel for managing customer orders and generating detailed sales reports for Delespesialisten (<https://delespesialisten.no/>).

3. Grocery App - Developed an admin panel and API for a grocery app, enabling users to order grocery items seamlessly (<https://www.flink.itfhrm.com/login>).

Key Competencies

- Adaptive
- Problem-solving
- Design - Oriented
- Deadline-Driven
- New Tech - AI
- Communication skills
- Complex array handling
